CACI ULTIMATE is the UK's most advanced non-surgical facelift technology, for clinically proven results. CACI has attracted an enviable celebrity following thanks to prestigious 'Award Winning' status as the most effective anti-ageing treatment available. CACI uses micro-current technology to tone, lift, and re-educate your muscles back to their original position. CACI will re-establish your skin's proper firmness by correcting sagging muscle and skin tissue.

Bon Vivant Hair/Beauty Boutique is proud to offer the award winning CACI ULTIMATE treatment. This allows us to combine CACI Non Surgical Facial Toning, LED Light skin rejuvenation, Hydratone and Microdermabrasion; allowing for the most comprehensive range of non surgical treatment for visible results from your very first session. The CACI wrinkle revolution offers a needle and pain free alternative to collagen injections and dermal fillers! Great results with one session. A course of 10 treatments plus booster facials is recommended for long-lasting results (save 10%). Ideal for those clients committed to looking after their skin.
